STUDIO (PRO)

Innovative Design

Crafted for a smooth form factor that is easily held for photographic experience, the STUDIO PRO takes pictures to another level. Design detail such as a diamond cut polished chamfer edge on the camera to compliment the already superior metal housing. Available in Gray, Gold, Rose Gold and Black.

STUDIO [PRO]

Metal Back Cover

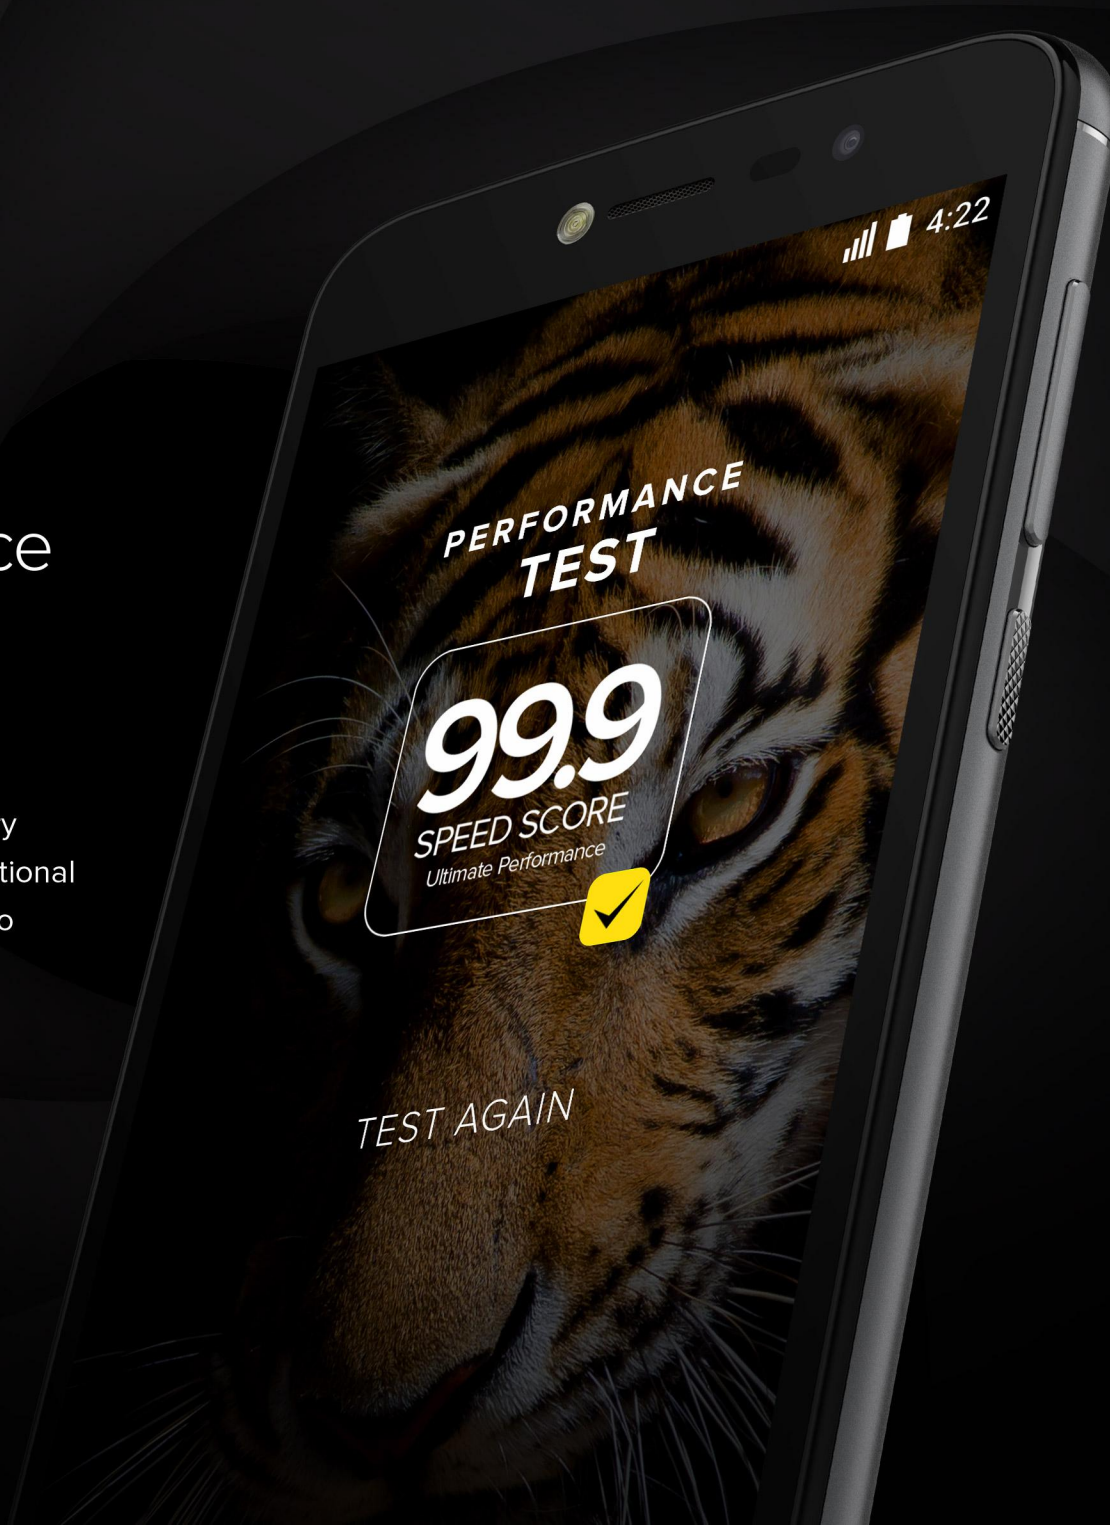

The STUDIO PRO utilizes state of the art material such as aluminum on the battery cover which provides structural integrity, while also raising the bar on the aesthetic quality. Pushing the design to a higher level that few succeed in.

Seamless Performance

With a 6580 MediaTek chipset, 1.3GHz Quad Core processor, the STUDIO PRO provides seamless efficiency.

The STUDIO PRO has 8GB of Internal memory for all your storage needs. If you require additional storage, the STUDIO PRO is expandable up to 64GB with built in MicroSD card slot.

Sharpness in the Details

The STUDIO PRO provides a superb high definition experience on its 5.0" HD display. With 720 x 1280 resolution and 294ppi, the STUDIO PRO will give you cinematic quality every time you view your favorite movies or play those action packed games.

BLU

Double The Capture

The STUDIO PRO has dual rear cameras to completely change the game when it comes to taking pictures. With dual cameras you will notice an incredible improvement to all your picture quality, not only enhancing the sharpness but also making colors brighter in the process. BLU once again engineers a smartphone to the caliber of professional grade.

**8MP
+2MP**
with DUAL FLASH

Capture Your Best Selfie

With a 5MP front selfie camera with built in LED flash you can capture your most prized group or self- portraits under any environment. The STUDIO PRO will provide clear and pristine picture quality in any environment with its built in flash.

Shoot Like a PRO

BLU is known for setting the bar high and always looking to improve the user experience. With amazing software modifications, such as BOKEH mode. This visual effect is the aesthetic quality of the blur produced in the out-of-focus parts of an image produced by a lens. BOKEH, in essence is the way the lens renders out-of-focus points of light. This is just one of the many developments BLU introduces with the STUDIO PRO.

Android 7.0 Nougat

New multi-window support to use apps on screen simultaneously.
Better background optimization to minimize RAM use by system and apps.
Project Vulkan API, a new 3D rendering API for 3D graphics.
With these new enhancements in addition to other features available,
users will have many new capabilities.

Globally Connected, Unlocked and Dual SIM

Stay globally connected with friends and family while traveling the world. The STUDIO PRO comes with 3G bands 850/900/1700/1900/2100 to ensure you always have access to worldwide carrier coverage while you're on the go!
